Turning machine and printing machine: the corner mark counts all the turns, the picture only the turns after it was printed

How to think about it: a turning machine and a printing machine

Machine R turns the sheet a quarter turn clockwise. Machine S prints an upright club. Two things on the sheet tell you what happened:

- **The corner mark** is there from the start. It turns with **every** R. So it tells you how many times R was used in total.
- **The club** is printed upright. It only turns with the R machines **after** S.

The contest question

The mark went from bottom left to top right: 2 quarter turns, so R is used twice. The club lies on its side (stem to the left): 1 quarter turn, so one R comes after S. Order: R, S, R.

Work backwards: the club shows the turns after printing, the mark shows all the turns.

Watch out

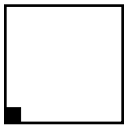
- Four quarter turns bring the sheet back to where it started.
- If you only look at the club, you miss the turns before S. If you only look at the mark, you do not know where S goes.

Try it: draw a little square in a corner of a sticky note and turn it in your hand.

Warm-up: small steps first (no points)

W1. A square sheet has a black mark in the bottom left corner. You turn it 3 quarter turns clockwise.

Where is the mark now?



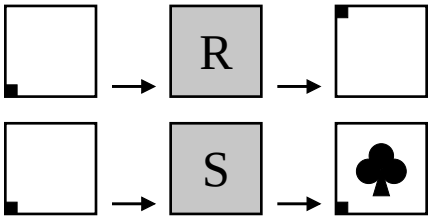
A. top left ***B.*** in the middle ***C.*** bottom right
D. top right ***E.*** bottom left

W2. There are two machines for square sheets of paper (see the pictures):

- Machine R turns the sheet a quarter turn clockwise.
- Machine S prints a club in the middle.

The sheet goes through **R S R R**.

How many quarter turns does the club make?



A. 0 ***B.*** 1 ***C.*** 2 ***D.*** 3 ***E.*** 4

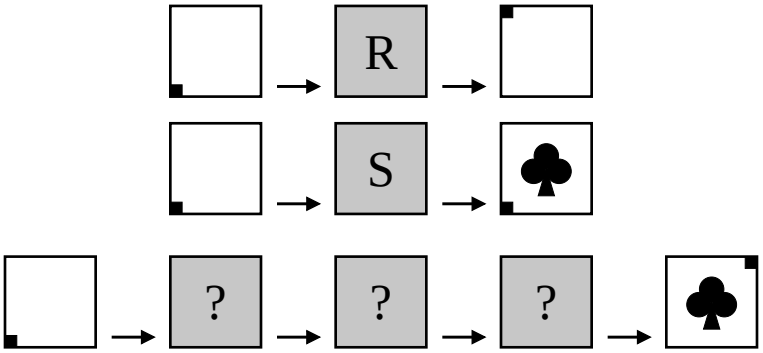
Part A: Each question is worth 3 points

1. There are two machines for square sheets of paper (see the pictures):

- Machine R turns the sheet a quarter turn clockwise.
- Machine S prints a club in the middle.

Anna uses the machines 3 times in a row and gets the picture at the end of the bottom row.

In which order does Anna use the machines?



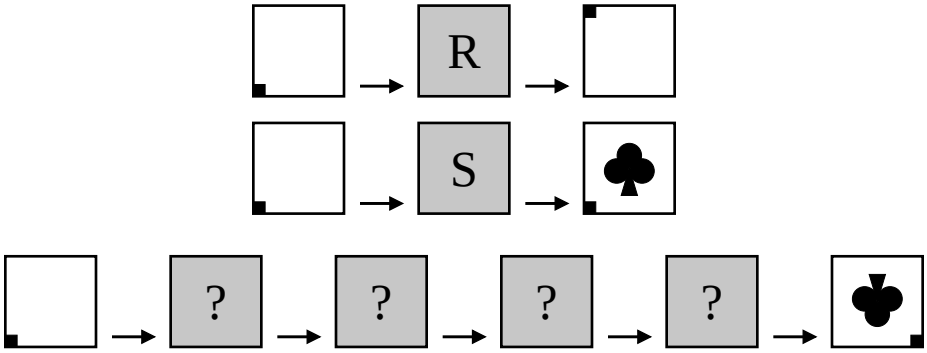
A. SSS ***B.*** RRS ***C.*** SRR ***D.*** RSS ***E.*** SRS

2. There are two machines for square sheets of paper (see the pictures):

- Machine R turns the sheet a quarter turn clockwise.
- Machine S prints a club in the middle.

Tom uses the machines 4 times in a row and gets the picture at the end of the bottom row.

In which order does Tom use the machines?



A. SSRS ***B.*** SRRR ***C.*** RSRR ***D.*** RRSR ***E.*** SSRR

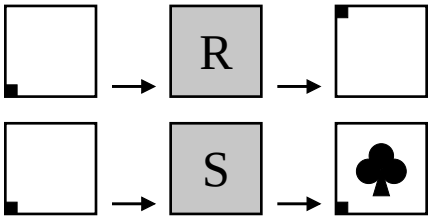
Part B: Each question is worth 4 points

3. There are two machines for square sheets of paper (see the pictures):

- Machine R turns the sheet a quarter turn clockwise.
- Machine S prints a club in the middle.

Anna puts a sheet in the machines in this order: **R R S R**.

What does the sheet look like at the end?



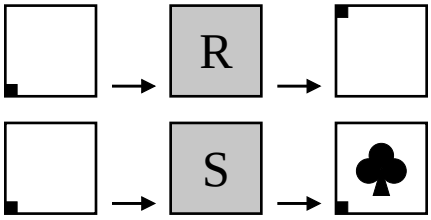
A. ***B.***  ***C.*** ***D.***  ***E.***

4. There are two machines for square sheets of paper (see the pictures):

- Machine R turns the sheet a quarter turn clockwise.
- Machine S prints a club in the middle.

Sara puts a sheet in the machines in this order: **R R S R R**.

What does the sheet look like at the end?



A. ***B.*** ***C.*** ***D.***  ***E.***

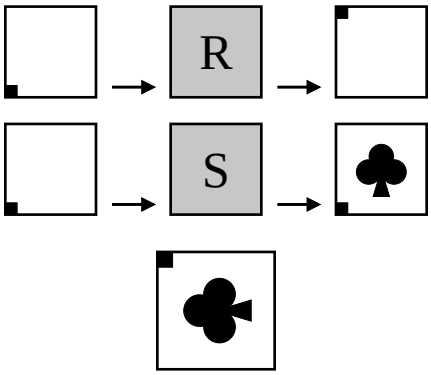
Part C: Each question is worth 5 points

5. There are two machines for square sheets of paper (see the pictures):

- Machine R turns the sheet a quarter turn clockwise.
- Machine S prints a club in the middle.

Tom uses machine S once and machine R as often as needed.

How many times at least must Tom use machine R to get this picture?



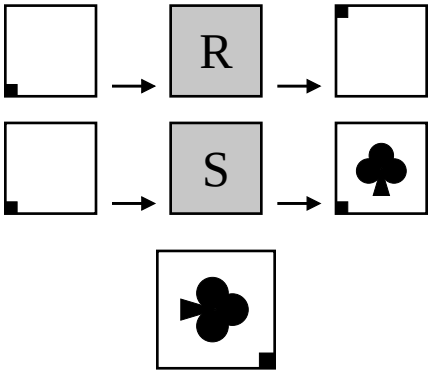
A. 1 ***B.*** 3 ***C.*** 4 ***D.*** 5 ***E.*** 9

6. There are two machines for square sheets of paper (see the pictures):

- Machine R turns the sheet a quarter turn clockwise.
- Machine S prints a club in the middle.

Mia uses machine S once and machine R as often as needed.

How many times at least must Mia use machine R to get this picture?



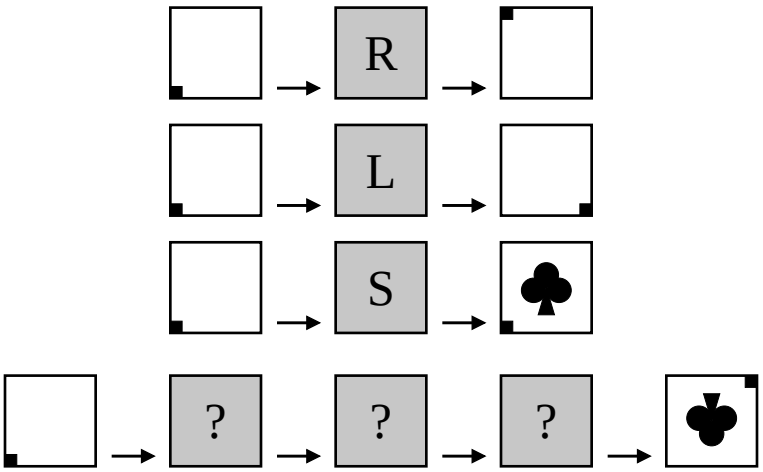
A. 3 ***B.*** 4 ***C.*** 5 ***D.*** 6 ***E.*** 7

7. There are three machines for square sheets of paper (see the pictures):

- Machine R turns the sheet a quarter turn clockwise.
- Machine S prints a club in the middle.
- Machine L turns the sheet a quarter turn anticlockwise.

Leo uses the machines 3 times in a row and gets the picture at the end of the bottom row.

Which order works?



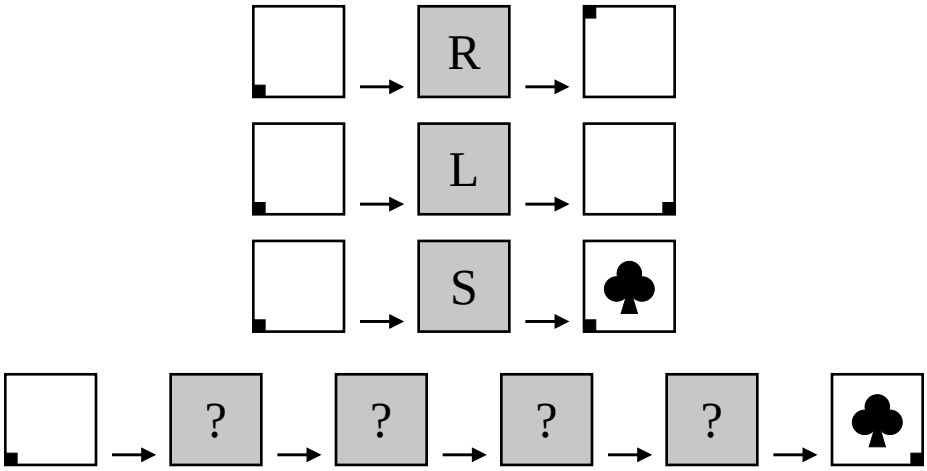
A. LSL ***B.*** SRR ***C.*** SRL ***D.*** SSR ***E.*** LLS

8. There are three machines for square sheets of paper (see the pictures):

- Machine R turns the sheet a quarter turn clockwise.
- Machine S prints a club in the middle.
- Machine L turns the sheet a quarter turn anticlockwise.

Else uses the machines 4 times in a row and gets the picture at the end of the bottom row.

Which order works?



A. LLSR ***B.*** SLRR ***C.*** SRLL ***D.*** LLRS ***E.*** RRSR

Answer Key

W1.	**C**	**W2.**	**C**	**1.**	**B**	**2.**	**C**	**3.**	**E**	**4.**	**B**
5.	**D**	**6.**	**A**	**7.**	**B**	**8.**	**D**				

Solutions

W1. C (bottom right) — Clockwise the mark goes: bottom left, top left, top right, bottom right. [set-01/by_level/Grade_03-04_Ecolier/2023 Q22 · w_where_mark]

W2. C (2) — The club only turns with the R after S: 2. [set-01/by_level/Grade_03-04_Ecolier/2023 Q22 · w_club_after]

1. B (RRS) — The corner mark turned 2 quarter turns, so machine R is used 2 times. The club stands upright, so S comes last: RRS. [set-01/by_level/Grade_03-04_Ecolier/2023 Q22 · which_order]

2. C (RSRR) — The corner mark turned 3 quarter turns, so machine R is used 3 times. The club turned 2 quarter turns, so 2 R come after S: RSRR. [set-01/by_level/Grade_03-04_Ecolier/2023 Q22 · which_order]

3. E — The mark turns with every R: 3 quarter turns. The club is printed upright and then turns only with the 1 R after S. [set-01/by_level/Grade_03-04_Ecolier/2023 Q22 · which_picture]

4. B — The mark turns with every R: 4 quarter turns. The club is printed upright and then turns only with the 2 R after S. [set-01/by_level/Grade_03-04_Ecolier/2023 Q22 · which_picture]

5. D (5) — The club is turned 3 quarter turns, so 3 R come after S. The mark needs 2 more quarter turns before S. Together 5. [set-01/by_level/Grade_03-04_Ecolier/2023 Q22 · fewest_turns]

6. A (3) — The club is turned 1 quarter turn, so 1 R comes after S. The mark needs 2 more quarter turns before S. Together 3. [set-01/by_level/Grade_03-04_Ecolier/2023 Q22 · fewest_turns]

7. B (SRR) — Check each order: follow the corner mark through every machine and turn the club only with the machines after S. Only SRR gives the picture. [set-01/by_level/Grade_03-04_Ecolier/2023 Q22 · left_machine]

8. D (LLRS) — Check each order: follow the corner mark through every machine and turn the club only with the machines after S. Only LLRS gives the picture. [set-01/by_level/Grade_03-04_Ecolier/2023 Q22 · left_machine]
